

Errata

Writing rules is not easy, which means that from time to time the occasional gremlin (or mistake as most folk know them) creeps past the sentry drones and security fences. This download page is to support your games by addressing any FAQ's or Rules Queries so that you have the answers readily to hand.

Main Rules:

P71 – 3rd header should say “Retreating models”

P62 – Ignore the right-hand image of the three depicting a blast scenario. The text for “Whoops” is correct. If a “Whoops” is rolled, the template is placed over the model attacking.

GOTG – If a Gift of the Gods card confers additional movement, **charge** and **fight or flight** distances also benefit from this ‘buff’.

Soul Train:

On Bobby B’s stat card ability “*Torturous*”. Attacks are resolved at **NAS**.

On Erishkigal’s stat card ability “*Soul Weaver*”. This cannot be done whilst in combat. In addition, when the model is successfully resurrected, place the model in base to base contact with Erishkigal.

Parlour Tricks:

If Small Daniels dies whilst he has a model ‘hidden’ by the ability “*Wizards Sleeve*”, then the ‘hidden’ model removed from play. In addition, if resurrected only Small Daniels returns and not any ‘hidden’ models.
